

How a contractor buys from Trenchless Distribution

Seven steps from needing a liner to reordering one. Built around the two contractors we expect most: Mike and Dave.

BUYER ONE		BUYER TWO	
Mike Runs a lining crew. Needs supply and support, fast.		Dave Plumber adding CIPP. Needs a clear way to start.	
DISCOVER	EVALUATE	BUY	KEEP
Steps 1 and 2	Steps 3 and 4	Steps 5 and 6	Step 7
01	Need arises DISCOVER		
HE IS THINKING	HE DOES		
A job is booked, or lining keeps winning my laterals.	Checks his shop stock, or starts researching CIPP for the first time.		
02	Search DISCOVER		
HE IS THINKING	HE DOES		
Who sells what I need, and who has it in stock?	Searches a product or brand, asks an AI assistant, or checks Google Maps.		
03	Land EVALUATE		
HE IS THINKING	HE DOES		
Do they carry my brand? Will they compete with me?	Scans the homepage on his phone for about five seconds.		
04	Evaluate EVALUATE		
HE IS THINKING	HE DOES		
Will this fit my equipment? Where are the specs?	Opens product pages, downloads spec and SDS sheets, compares options.		
05	Quote and decide THE MOMENT HE ASKS FOR A QUOTE		
HE IS THINKING	HE DOES		
Is the price fair, and will anyone call me back?	Fills in a short quote form or calls. Weighs price, ship time and support.		
06	Order and receive BUY		
HE IS THINKING	HE DOES		
Will it arrive before the crew rolls?	Places the order, pays or sends a PO, tracks the shipment.		
07	Support and reorder KEEP		
HE IS THINKING	HE DOES		
Who do I call when a cure fails?	Calls tech support, books a demo or training, reorders from his saved list.		

What the site and team give him at each step

The same seven steps, with the job the new website and your people are doing at each one.

01

Need arises

Useful guides and posts that make Trenchless Distribution a name he already knows.

02

Search

Search and AI search pages by product, brand and job. A Google profile that says distributor.

03

Land

A hero that says we supply contractors. Shop by job. Phone number at the top.

04

Evaluate

Product pages with specs, downloads, stock status and a Get Quote button.

05

Quote and decide THE MOMENT HE ASKS FOR A QUOTE

A four field quote form, click to call, a named specialist and a same day reply.

06

Order and receive

Clear ship times, order tracking, will call pickup, financing for qualified buyers.

07

Support and reorder

Tech support, repair help, a demo and training calendar, dealer login with a reorder list.

WHERE WE COULD LOSE HIM

Step three, in about five seconds.

He lands on the homepage and asks one question before any other: do these people compete with me? The current site reads as though you install pipe yourselves. The new homepage answers it three times before he scrolls, which is the single largest change in the design and costs nothing to make.
